

2 Beacons - All At One Time

By GRACE BROAD CARR

Wesley, Sask.

It was with a thrill of ecstasy that I first remember seeing the statement "Auntie's story beacons glow." Perhaps I was influenced by Scott's "Isle of the Lake," but the 20 spots of flame resembled nothing so much as beacons. I was standing on a small hill just outside the town where I lived, and the velvet dark of early evening was broken by the flames leaping from twenty burning strawstacks. I remember how carefully I counted them, and then told myself, "I will always remember this - 20, burning at one time."

In those days, we high school kids had a very personal interest in strawstacks. Certainly the first, and likely the most interesting, was when a stack was burning. We were told around a burning strawstack for a few hours, and the flames were as bright as the sun. We were told that the flames were as bright as the sun. We were told that the flames were as bright as the sun.

Letter to the Editor

DOWN WITH GRIZZLIES!

I always enjoyed reading Phillip Keller's stories and I read "Grizzly Bear is Still of Many Tails." I now class him as a fanatic. There are families of grizzlies, ranchers, etc., who must live in the Swan Hills where grizzlies are protected or in the surrounding areas. How are these bears to be kept in the Swan Hills?

Would Mr. Keller like to see his children out picking berries or flowers, or going for the cure in hot country? Would he like to try to raise livestock there?

The black bear is a villain also. They will break into grain bins or carry off calves, sheep or pigs. I have heard from on a rooftop while for the return of a bear that had made off with a 100-pound pig. It is not the value of the animal that is taken, so much as the fear felt by the remainder of the flock, that causes hardship. Stock will refuse to graze where they detect the slightest smell of bear. Only when all bears are exterminated will we be free and safe to enjoy our farms.

It is right to refuse immigration into Canada and then give fertile land like Swan Hills to a few hoards!

They multiply three times as fast as man and it will soon be right when they start raising surrounding settlers.

Did you hear of the case where the mother asked her terrified child how her sister was - and the answer was - "The big dog took her!"

Let's shoot that black bear too before some city politician gets him protected.

Phillip Keller wants to preserve bears and his fur to stuff!

Harry Spar, Sparrow Pooled Newford Ranch, Fort St. John, B.C.

OLD IRONSIDERS

The nickname "Old Ironsides" for the American battleship Constitution came from a story that she was shot, bounce off her oak sides in a battle during the War of 1812.

party, and the best for roasting the venison.

PLANS MADE EARLY

As soon as harvest was well under way, we began to make our plans. The high school was divided into "years" or grades, and each one of the four plans and was carried out their own party. One of the students who asked his father for a strawstack, the larger the better. Then a committee made arrangements - the best night of the week, the food to be served and the way to provide it and they told myself, "I will always remember this - 20, burning at one time."

On the night of the party, the group gathered at the high school an hour before dark. We were dressed for the occasion and made the most of our walk through town, singing, shouting and clapping, announcing to all who would listen that we were out to enjoy the evening.

Arrived at the stack, the hardy souls stood in the top of it, while the others tried to reach the summit. Thus exposed a giant game of "King of the Castle." Should one fairly and honestly triumph, he might be buried down the stack.

But even teen-agers tire, and finally we were ready to end the rough and tumble. Everybody gathered up an armful of straw, and carried it a distance from the stack. Several small piles were formed which were quickly lit, and burned furiously. At first, the heat was too intense for us to get near them, but as the flames subsided, each pile became a heap of embers, an excellent place for roasting venison. Of course, by this time everybody was positively hungry, and what

ever fare had been provided quickly disappeared. Then we sat around our camp fires.

Finally, we lit the main stack, and had to retire to some distance to avoid the intense heat. If we still had energy to spare, we played tag games in the light afforded by our giant bonfire.

The walk home was a quiet affair. We went in small groups, some talking, some singing, but all willing to admit fatigue. After all, it had been a most satisfactory evening!

Some time after I graduated from high school the winter sports were discontinued. I think the fact that they resulted in two or three broken bones was the main cause.

I moved away from that town, and for years thought only of the good times we had enjoyed when winter sports were discontinued. I don't remember even thinking of the discontinued number of strawstacks.

Last Fall I was surprised to see a strawstack. There, just off the highway, was a three-story machine holding a strawstack. And I am sure that that stack will not be sacrificed to create a "fiery bonfire" for 1963.

Travel is being held up for 'hours' in Rogers Pass.

Mr. Nordvie went to Kelowna via Rogers Pass on December 29, and returning on December 30, and then went again to Vancouver via Kelowna on January 2nd, returning on January 3rd. Now this was during the worst of the snowfalls, during the time when certain sections of the pass were making wild statements that Rogers Pass was impassable and highly dangerous.

The traveller had no trouble what so ever in either of his four trips over the Pass. He had nothing but praise for the wonderful array of equipment that is in use on the pass to keep the highway free of snow. He said that the road clearing equipment ahead of us at every mile and right to remove fresh snow from the highway.

Mr. Nordvie said, as other travellers who have been over the Rogers Pass have also said, that it is a marvelously engineered project, making advantage of naturally easy grades. There are

FOR THOSE WHO LOOK AHEAD

Muttart Homes '63

DO YOUR PLANS FOR '63 INCLUDE A NEW HOME?

Then a Muttart Manufactured Home is your answer. For the least amount of cash outlay, you erect your own home saving thousands of dollars in labor costs. Anyone can erect a Muttart Home - our customers with no carpenter experience are doing it every day of the year. Its so simple and fast because all walls of your Muttart Home are pre-built, roof trusses eliminate the otherwise difficult roof framing job, and all doors are pre-hung.

Rogers Pass Traffic Moves Smoothly

SO SAYS BRAZEAU MAN WHO TRAVELED IT WHEN SNOWS WERE AT WORST

Travel is being held up for 'hours' in Rogers Pass.

Mr. Nordvie went to Kelowna via Rogers Pass on December 29, and returning on December 30, and then went again to Vancouver via Kelowna on January 2nd, returning on January 3rd. Now this was during the worst of the snowfalls, during the time when certain sections of the pass were making wild statements that Rogers Pass was impassable and highly dangerous.

The traveller had no trouble what so ever in either of his four trips over the Pass. He had nothing but praise for the wonderful array of equipment that is in use on the pass to keep the highway free of snow. He said that the road clearing equipment ahead of us at every mile and right to remove fresh snow from the highway.

Mr. Nordvie said, as other travellers who have been over the Rogers Pass have also said, that it is a marvelously engineered project, making advantage of naturally easy grades. There are

only two grades that show the vehicle down to any appreciable extent and throughout the highway, "speed" curves have been built. At present there are eight snowplows along the route, and there is possibly one for a couple of miles which will probably be built this year.

Travelers who have made the trip frequently over the Big Bend highway, and now over the new Pass highway, speak of how much better the new highway is, with far fewer and less sharp bends than the former highway had, as well as all the extra miles that are cut off by the new route.

So, don't let the propaganda put out by opponents of the proposed new route, Drayton Valley-Lodgepole-Banff-Northing, etc., to Rogers Pass either fool or discourage you. If you want to see this route completed in short order, we feel that it is the most logical route to the West Coast from A.L. of central and northern Alberta, which is a highly big area particularly since it includes the City of Edmonton.

During the snow hour last Tuesday the fresh snow and icy roads brought a minor traffic accident to the community when a half ton truck owned by National Transit crossed the top sign entering Highway 17 from the Violet Grove road. A large tandem truck following behind was unable to stop in time and the driver steered into the ditch in an attempt to avoid hitting the truck. However the tandem jack-knifed and the rear hit the half ton and sent it flying across the highway, where it came to a stop in the ditch, and facing the opposite direction.

Goled employees Peter Henstra and Amos Wilson came upon the scene shortly after the accident had occurred and notified to the Goled office call a doctor and the R.C.M.P. Dr. Stevens and the Goled office were dispatched to the call. The driver of the pickup was only slightly injured, and the driver of the tandem was injured.

Word had gotten around that Mr. Lebeuf would be present at this executive meeting and so considerable interest had been generated in the meeting from the citizens unconnected with the Citizens Justice League.

Legion Officially Opens New Hall

At the official "Ribbon Cutting" ceremony on the brand new Legion Hall last Wednesday, January 9th, are, left to right: President Ken Wardlow, Auxiliary President Hank Turner, Member John McKenzie (holding the ribbon) past Auxiliary President Muriel Bole, and Past president Maurice McCullagh in the rear are Members John Hurley and Roy Willis, 1st. vice and second vice presidents, who were members of the Building Committee. John McKenzie was a Charter member of the local group and formerly owned the land on which the Legion Hall is located.

Almost unknown to the rest of the community is the fact that the local Legion group, No. 289 have been erecting a very fine building in which to carry on their activities. The building, erected on the west side of the former Legion Hall, on the corner of Main Street and 1st Avenue, is a credit to this community and would be a credit to any community. The first section of the new hall was completed recently and was officially opened on Wednesday, January 9th, with a buffet supper, followed by a dance.

Seated at the head table was Bob Stinson, who brought greetings and congratulations from Drayton Valley Elks Lodge, Baby Tumbler, a booming president of the Ladies Auxiliary, Rose Corbett, master of the Elks, and past president Muriel Bole, past president of the Auxiliary, Acting as M.C. was Mr. Wardlow. In addition to the greetings brought by the Elks, Mr. Pete Hobb brought greetings and congratulations from the Lions Club as did also A. Playford for the Chamber of Commerce.

The card promises to furnish plenty of action with the best available fighters coming from Edmonton, Jasper Place and possibly from Lake. Of course a good representation of our own fine fighters were to be developed in a game. The boys wearing the call. The driver of the pickup was only slightly injured, and the driver of the tandem was injured.

CURLING
(Cont. from page 1, Col. 5.)

At 6:30 on Friday Clarence Horne, a recent import from Devon will angle with Fred Tookley who is a solid club curler and has been a threat for many years. Dr. H. Shimashi will be on against John Fountain who is a curlier that shows great promise. It is as certain as the sun comes up in the East that he will be the Club Champion.

On Saturday Morning Sam Kozak, who can never be under estimated at the worst of times squares off with Adrian Meier, who represented the Club in 1962 and previous years, played with Adrian Meier will be former-er Brian Champion Billy Rose, who won the championship playing out of Sedgewick but now makes his home in Drayton Valley.

The public are invited to drop in to the curling rink and see the play-offs in action. The first draw will be at 1:00 P.M., 5:00 P.M., and 9:00 P.M. on Saturday, Jan. 10 with the final going at 8:00 Sunday afternoon.

The public are invited to drop in to the curling rink and see the play-offs in action. The first draw will be at 1:00 P.M., 5:00 P.M., and 9:00 P.M. on Saturday, Jan. 10 with the final going at 8:00 Sunday afternoon.

The public are invited to drop in to the curling rink and see the play-offs in action. The first draw will be at 1:00 P.M., 5:00 P.M., and 9:00 P.M. on Saturday, Jan. 10 with the final going at 8:00 Sunday afternoon.

D.V. Highlights

By Edith Deby

Have you seen Mr. Playford in his new derby? It is most becoming and he has been trying to persuade him that he needs a "buddy" to go with it.

Hope you didn't miss Mayor Meier's speech on the radio on Sunday. We thought he gave listeners a very good and true picture of our town.

Mr. and Mrs. Ronald Jensen were home for the holiday. Ronald and Miss Emily Doucette were married in Grand Prairie in October. My beloved, but none the less sincere, good wishes are extended to the happy couple.

After several years Mr. Kenneth Klevin has returned to Drayton Valley. He is to care for Mr. and Mrs. Peter Anderson, Sons Martin and Ronald are staying with their grandparents, Mr. and Mrs. Fred Cull, Mr. Klevin has business very close in Youngstown this year owing to the drought and is taking a job in Hinton.

The Klevins were here in the town's beginning back in 1955. Mr. Klevin was manager for Crown Lumber. Mrs. Klevin is one of the seven charter members of the United Church W.I.

W. I. MEETING

At the December meeting of the Drayton Valley W.I., Mrs. Waleham, handicraft convener, chose a design for the club vault.

Min. Deby reporting for the library, stated that there have been 40 child and 4 adult new members since Nov. 1 and 1402 books sold. The Library will again be holding operations for donations this year. There will be a plebiscite at which electors will vote on whether or not the library shall become a Municipal Library. This will take place in the fall at the time of the Civic elections.

Welfare committee reported that Mrs. Jack Frank and Mrs. Deby had made a comfortable for a needy pensioner. Also concerning welfare all women's organization of the churches will be invited to send a delegate to the January meeting of the W.I. Mrs. Noddy will speak on welfare problems.

Mrs. Chelphase, chairman for agriculture and Canadian Industries plan to have a speaker for the February meeting to speak on flower show.

The By-Laws were read and it was decided not to make any changes. Bill call was a Christmas gift. Entertainment in the farm of games and contests was provided.

Draws for the next league for the coming week will be as follows. Teams in Section "A" should check the draw carefully, due to the drop out of the Thompson rink you will get a bye when you play this particular rink.

SMALL TALK

Editorially SPEAKING

Those U.F.O.'S Are "Silver Dollars"

SAYS MRS. C. W. WOOD

Have you seen any "Unidentified Flying Objects" in the sky lately? They are not spatulas or Teflons, according to Mrs. C. W. Wood, M.L.A. for this district. Mrs. Wood claims that those objects you see in the sky are "Dollar signs" not so she told the Journal recently. Apparently, according to Mrs. Wood, these "lightings" that have taken place recently in the air over this district are something that some of the farmers in this district want. We quote from January 2nd, Journal a statement made by Mrs. Wood. This said in part: "..... A small percentage of farmers are doing the complaining and for them it might be a serious matter. But for the majority who made deals directly with oil companies, no serious problems exist. As Mrs. Wood then continued: "It seems to be a case of if you see a silver dollar in the sky, you want it."

Years ago when the West Coast Lumber Industry was organizing to get a better deal from the "bosses", the lumber barons, they had a quite scintillating song which went in part: "I'll work and pray, live on bay, you'll get pie in the sky when you die." Evidently it is indicative of better times now when the farmers no longer see "pie in the sky" but see "silver dollars" instead.

We have recently seen other "things" in the sky. We have seen "rigs" and these are the things that when this next session of Legislature is finished Cornelia W. Wood will have served her last term as M.L.A. for this district.

She has played the "party line" long enough, to the detriment of her own district, or at least this western section of the constituency.

Recently stated that "we" (the Social Credit government) would "take care" of the route via Jopole and Nordgate to the Trap - and a high-voltage line after the Yellowhead Route. As taken care of, Mrs. Wood. You are supposed to represent U.S. and not the political hucksters that want to see the Yellowhead route and NO OTHER completed.

Your government has consistently played down the fact that there is anything wrong with their "Arbitration Board", no, of course, you play along with them. But we, in the western part of Stony Plain Constituency want adequate representation, also.

What Is An Arbitration Board?

We have heard a lot lately about "Arbitration" as related to the Arbitration Board established by the Socred government. So we might take a look at just what the word "arbitration" does mean.

Funk and Wagnalls New Practical Standard Dictionary of the English Language, revised to 1957 has this to say: "ARBITRATION: noun. The hearing and settlement of a dispute between two parties, as between two countries, two persons, or a company and a union, by the decision of the third party or court to which the matter is referred by the contestants as a means of avoiding war, a strike, a lawsuit or other extreme action." It goes on to state that an Arbitrator is one chosen by AGREEMENT of parties to settle a dispute between them.

No one, at least no unbiased person, acquainted with Mr. Manning's Arbitration Board such as we have known out in the country and evidently in other areas too, although they aren't getting quite the publicity that this area is, could even begin to concede that it went about settling disputes to the satisfaction of all parties concerned. The choice of the man chosen to head up the Arbitration Board, was most unfortunate. The head of that board apparently came into each area and each dispute with the foregoing conclusion that the land-holder was wrong and that the government and the company involved were right. Insurance was right. The Board together travelled downriver, and in one of the many instances provided for redress by way of the courts and legal action. Strange that a government, subscribing to belief in democratic principles, should set up a government agency, supposedly to "arbitrate" and you would take away from the right to take his case to court and subject it to the territory of legal minds.

Innocent ...

Taken from Rimbey Record.

A boy takes a young teenage girl for a drive despite objections by the girl's parents.

A young man shares a bottle of beer with a 17-year-old girl.

A young woman encourages a 16-year-old girl to run away from home.

These, and other similar acts, fall under the heading of contributing to juvenile delinquency, and can be punishable by up to two years in jail, plus a \$500 fine.

Red Deer's chief probation officer says that there has been a rash of such cases in Central Alberta. He says that the boys involved are shocked when they are sent to jail, that they expect to get off with a fine.

Mr. Zeigler says that the following acts could become offences under the Juvenile Delinquency Act:

—Taking a young girl (under 18) for a drive against the wishes of her parents;

—Persuading a girl under 18 or a boy under 16 to run away from home;

—Aiding or encouraging a juvenile to commit a crime;

—Dating a young girl against the wishes of her parents;

—Keeping a young girl out overnight, whether an offence is committed or not.

No publicity is given in connection with convictions under the act, because hearings are in camera to protect the juveniles involved. "But," says Mr. Zeigler, "The public should learn of the sentences imposed, so that young men will come to realize how serious the offences are." Women can be convicted of contributing, too.

Rights & Principles Involved

One reason why we personally take the side of the farmers in this present dispute is as a result of something that happened over half a century ago, something for which probably none of us now living were in anyway responsible. That was the legislation that was passed, and became effective back in 1905, to "reserve all minerals rights" to the Crown. Of course in this instance the "Crown" is a mighty nebulous figure, represented by provincial governments, and of course none of the mineral rights thereby reserved would ever revert to the "Crown" as we know that to mean.

There has been talk among groups lately that a goodly percentage of oil minerals (and undoubtedly other minerals) revenues should revert back to the landholder. And we go right along with that thought. We feel that a law passed back in 1905 is not necessarily valid today. Maybe someone made a mistake back then; we should re-examine that law now and see if perhaps it should be revised.

Any "Bill of Rights" would of necessity re-iterate the fundamental rights of the individual as against the State. We need at this point a clear cut re-iteration of the great principles of the individual citizen. We are in danger of coming to the conclusion that "Might Makes Right" and therefore, per se, the mighty State is right, always right, and the individual citizen is wrong, always wrong, whether he is right or wrong we do not begin to say, but there is an inherent principle of democratic government involved that none of us can afford to shirk off. And we do believe that most of the individual citizens involved in this area and in other areas where matters such as these have come up certainly have much more common sense than that would indicate injustice has been done.

We feel that landholders should get more adequate remuneration from minerals that their lands contain. So far the "oil companies" have been called the big bad wolves. We do not go along with that. We go a step farther and say it is the State that has wronged the owners a more adequate remuneration for mineral rights reserved. And when the State is making primary arrangements with oil companies, let the lease of lands they should bear in mind adequate remuneration of the land owner to the landowner.

The expression, "The Greatest Good for the Greatest Number" is an old and hackneyed phrase that has been taken out of its context and misused. Some day, sometime later, we are going to have to examine quite closely the rights of the individual citizen. We are in danger of losing these rights.

LETTERS TO THE EDITOR

Dear Mr. Playford,

Due to your letter, "In publishing the Truth of the Foundation Issue, I feel if you have not already read the two enclosed articles

the indiscriminate use of Drugs.

As anyone can take Fluoridation Tablets or any of the other suggested forms if they so desire, it is a complete matter of personal administration and in view of the overwhelming defeat of Fluoridation these over people have been told the TRUTH of the attempt being made to compel ALL, willy nilly, it is the principle at stake, and it is quite alarming that we appear to have now reached a stage of society when it is no longer safe for scientists who have studied and know from such research to voice their opinion. I feel all who sincerely wish to uncover thoughts should be able in a democracy to discuss their differing views amicably and with no bitterness. And it should be necessary to employ superior tactics to sell the public as honest programme via above and ridicule of people who "oppose" this wholesale Mass Medication.

As far back as 1949 The Journal of the American Medical Association contained the warning "The sources of fluoride intoxication are drinking water containing 1 part per million or more of fluoride, and again, in 1956, The Journal of the American Dental Association contained another similar warning regarding the effects of chronic fluorosis of which mottling is the first indication." "We do know that the use of water containing 3.0 to 6.0 p.p.m. 1.2 to 3.0 parts per million of fluoride will cause such developmental disturbances in bones as osteoarthritis, spondylitis, and osteoporosis, as well as goitre."

One simple thought is - how could a poison be poisonous in 1949 "but perfectly safe" according to the promoters, in 1956 or '57?

The answer to the above is that under the impact of Fluoridation the original purpose of the use of water of fluoridation not only had to be re-evaluated, it is readily understood how these things in the hands of propaganda in favor come about.

I feel that the idea of sacrificing the individual to the Community is philosophically an entirely new and dangerous concept of Political Philosophy. It is Totalitarianism, it is the idea that what is good for the whole is hidden in it is something we would like to see the end of. Safety likewise for Fluoridation is a dangerous concept, and it is obvious when Fluoridation can be taken under competent Medical or Dental supervision, it is obvious that it has been done far cheaper etc. in New Jersey and other Cities.

Sincerely
Muriel Burton-Watkins.

D.V. SKI TOW, A POPULAR SIGHT

The heavy snow that has blanketed hill and vale in Drayton Valley and district in the past two weeks certainly has its drawbacks as far as maintaining the local hockey and skating rinks, however. It has been nothing short of white gold to so many ski enthusiasts. The Drayton Valley Ski Tow is in full swing now and the slopes have been thoroughly enjoyed by everyone who took part in this winter sport during the past two weeks.

There has been quite a variety of skiers out trying the hill ranging from new beginners to season of intermediate competitors. All have found the slope to be a definite challenge. At this time possibly one of the feature attractions of this brand new facility is the fact that instructors in the art of skiing are available every Sunday afternoon with Valley Nohs as instructor. Valley is quite an accomplished skier in his own right and has been attending a one week's instructional course in Banff, Alberta.

But at times very difficult slopes of Sun Valley. Anyone with a season ticket is eligible to take advantage of these instructions.

I have been informed by George Lecky that the new tow is working in excellent fashion. During regular hours of operation, which are from 1:00 P.M. to 5:00 P.M. on Saturdays and Sundays the tow is supervised by experienced personnel and qualified skiers. It is always available. There have been many requests for white slush and perfect

The Chapel Hour A Prayer

... for a person in a hurry

SLOW ME DOWN, LORD! Ease the pounding of my heart by the quieting of my mind. Steady my hurried pace with a vision of the Eternal reach of time.

GIVE ME, amidst the confusion of my day, the calmness of the Everlasting Hills. Break the tensions of my nerves and muscles with the soothing music of the singing streams that live in my memory. Help me to know the magical, restoring power of sleep.

TEACH ME THE ART of taking one-minute vacations, of slowing down to look at a flower; to chat with a friend; to pat a dog; to read a few lines from a good book. Remind me, each day, of the fable of the hare and the tortoise; that I may learn that the race is not always to the swift; that there is more to life than increasing its speed.

LET ME LOOK UPWARD to the branches of the towering oak and recall that it grew great and strong by growing slowly and well.

SLOW ME DOWN, LORD! Inspire me to send my roots deep into the soil of life's enduring values that I, too, may grow toward the stars of my greater destiny. Amen.

ANONYMOUS

Prayer Is Communion With God!

It may be the pouring out of the heart in petition
Or it may be an unuttered cry for help

It may be a storming of the gates in rigorous intercession
Or it may be the quiet consciousness of the Lord's presence

It may be a very wordy session of debate over a point of truth
Or it may be a quiet meditation where not a word is said but the mind is filled with the thoughts of the Lord

PRAYER IS NOT CONFINED TO FORMS, OR TIME, OR PLACE

It may be ceaseless as when one goes about the daily occupations with the almost subconscious sense of satisfaction that the Lord is near

It may be a brief and passing thought when one remembers a friend
Or loved one and offers up the name to the Lord
Or it may be a momentary flash when protection or guidance is needed

Prayer may be any time, any place
Or timeless and ceaseless and everywhere

PRAYER IS CONVERSATION WITH THE LORD

Talk to the Lord in prayer and let Him talk to you
Talk to Him about your needs—your sins, your fears, your hopes, your weaknesses, your joys, your griefs and your plans
Talk to Him about your loved ones, and friends, and enemies
Talk to Him about the unsaved world around you
Talk to Him often and everywhere and ceaselessly

BUT TALK TO HIM!

—DAVID MORSEY

THE BIBLE TODAY

The Bible Woman is disappearing in East Pakistan, according to the Missionary Herald, a publication of the Baptist Missionary Society.

Once a familiar figure on the missionary landscape, she is now less frequently seen. Generally an elderly woman, likely a widow, she probably had been a teacher in her younger years.

Many Bible Women have done excellent work visiting the women in the villages. "Akhlan, in- and other co-ops teaching pictures, conducting prayer groups and giving help in the way of life."

These women work today they "are likely to be known as 'evangelists.' Standards of acceptance are usually higher and include a real sense of devotion to the task as well as enough education to be capable of training."

Bible teaching has always been a basic function of the Church's work overseas.

Suggested Daily Bible Readings Sunday, January 13: I Samuel 3:1-18.

Monday, January 14: John 1:1-18.

Tuesday, January 15: Acts 2:1-21.

Wednesday, January 16: Acts 2:22-47.

Thursday, January 17: Acts 2:47-47.

Friday, January 18: Genesis 2:1-7.

Saturday, January 19: Genesis 2:18-25.

Church service every Sunday at 8:00 P.M. in the basement of the Golds Ltd. Office. For further information please PHONE 542-3748.

Anglican W.A.N.S.

ALL SAINTS ANGLICAN W.A.

The regular meeting of the W.A. was held Jan. 10th in the Church Hall. There were 10 members present.

The President gave her report on the Annual Turkey Supper and Bazaar. It was a huge success.

Both groups of the W.A. applied the trust and tea for the Christmas Sunday Concert.

Reverend Ingram and members of All Saints Church wish to express their sincere thanks to Dr. Macleure and Choir of the United Church for the lovely presentation of the Christmas Cantata, "Love Transcending" It was very well attended.

The W.A. will be sponsoring wine drive to be held each Friday evening at 8 p.m. in the Church Hall.

COOKING MAGIC

Tested Recipes and Meal Planning Ideas Prepared for Femina News Advertiser Readers by the Home Service Department of Northwestern University, Limited.

Make some spicy or fruit filled muffins to perk up breakfast appetites.

SUGARY APPLE PIES

2 1/4 cups sifted flour
3/4 cup baking powder
1/2 cup shortening
1/2 cup - 2 tbsp. sugar
1 egg, well beaten
1 cup finely chopped apples
1/2 tsp. salt
1/2 tsp. cinnamon
1/2 tsp. nutmeg

Sift flour, baking powder, salt and half the spices. Cream remaining with 1/2 cup sugar. Beat in beaten eggs. Then add mixture alternately with milk. Fold in chopped apples. Fill oiled muffin tins 3/4 full. Bake 20-25 minutes.

OATMEAL MUFFINS

1/4 cup butter
1/3 cup sugar
2 eggs
3/4 cup flour
1 cup rolled oats
3 tsp. baking powder
3/4 tsp. salt
2/3 cup milk
1/2 cup raisins
1/4 cup flour

Cream butter with sugar. Add eggs one at a time, beating after each. Add 3/4 cup flour, sifted with baking powder and salt.

Add rolled oats. Add milk. Do not raise with 3/4 cup flour and stir in. Four into greased muffin pans. Bake in a hot oven 400°F. 25 minutes. Makes 12.

DATE ORANGE BRAN MUFFINS

2 tbsp. shortening
1/2 cup sugar
3/4 cup milk
1 cup bran
1 cup all-purpose flour
3 tsp. baking powder
1/2 tsp. salt
3/8 cup orange juice
Grated rind of 1 orange
1 1/2 cups seeded, chopped dates

Cream shortening and sugar. Add eggs and mix well. Add bran which has been soaked in milk 30 minutes. Sift flour with baking powder and salt and add to first mixture, stirring only until flour disappears. Add oranges juice, grated rind and dates. Fill greased muffin pans 2/3 full and place tiny sliver of orange rind on each. Bake in moderate hot oven 375-400°F. 25 minutes.

CHICKEN CHOWDER

1 cup cooked, diced chicken
2 tbsp. chicken fat
1/4 cup finely chopped onion
2 1/2 cups diced potatoes
1 cup diced celery
2 cups chicken stock
1 can corn
2 cups rich milk
1/4 cup paprika
1/4 tsp. ginger
1 tsp. salt
1/4 cup pepper

Cook onions slowly in chicken fat, but do not brown. Add vegetables (potatoes and celery) and chicken stock. Simmer for about 15 minutes or until vegetables are tender. Add chicken and remaining ingredients for this.

STANDARD CREAM SOUP

You may use any left-over vegetables for this.

4 cups milk, or part milk and part stock
2 tbsp. flour
2 tbsp. butter
2 tbsp. minced onion
2 cups vegetable pulp, or meat or fish pulp
Salt, pepper and other seasonings

Melt butter, add onion and cook gently until tender but not brown. Blend in flour. Blend in the liquid slowly and heat to boiling. Cook the vegetables or meat or fish until tender. Drain and mash through sieve. Combine vegetables, meat or fish pulp with the white sauce. Season, beat with egg beater and serve.

These make an easy accompaniment for hot soups.

HOT SAVORY CRACKERS

Brush crackers with soft butter; sprinkle with poppy seeds, celery seeds, onion salt, or paprika. Heat in moderate gas oven 350°F.

Credit Union Meeting

The monthly meeting of the Board of Directors was held Thursday, January 10th. Present were three Board Members and two members of the Credit Committee.

One new member was reported and two more loans were reported.

Publications will be sent to all members announcing the Annual Meeting which will be held Thursday, January 21, in the Legion Hall. Elections for all

positions will take place at that time. Mr. Alvin, the field representative, will be in attendance. Any non-member interested in gaining more information about the credit union are invited to attend.

GREEN ACRES

by Earl C. Lowe, Veterinarian, Preventing Anemia in Pigs

As a general rule oral treatment with reduced iron is still the cheapest and most effective method

of preventing anemia in suckling pigs. A single dose of an injectable iron dextran may be more convincing in the case of large scale production because it eliminates much of the handling.

Since anemia still ranks as one of the major problems in swine production a considerable amount of research has been done on this disease by the Animal Science Department of the University of Alberta.

In one test pigs from the same litter were divided into three groups and given different forms of treatment. One group received vitamin A and D by mouth at 3, 7, 10, 14, 17, 20, and 24 days of age. This is twice as often as previously recommended. The second group were given an injection of iron dextran complex at three days of age which contained 100 mg. of iron per dose.

It was found that the oral treatment with reduced iron gave slightly higher eight-week weaning weights and considerably higher weanling levels than were obtained from a single injection of iron dextran. A second injection of iron dextran or a higher level of iron in the initial injection might have given a similar result to the oral treatment. The two injections of the soluble iron-vitamin compound proved unsatisfactory in maintaining the desired hemoglobin levels and weaning weights.

Winter and spring litters need special attention as anemic pigs are more susceptible to scours and pneumonia. When choosing a product to prevent anemia, the effectiveness, ease and frequency of treatment and the cost are all important factors. The cost of the product should be balanced against the cost for the treatment in terms of time and labor.

For the only injectable anemia preventative that can be recommended as the iron dextran and oral iron-carbohydrate compound.

Distributor for Bearings, Oil Seals, Roller Chain.

work on Tuesday and Thursday of each week. The workouts start at 7:30 P.M. and are limited to an hour and a half and are carried out under the direction of Bob Mayhew.

The purpose of this club is to attain and maintain a high degree of physical fitness among our male population. The club is open to any man who is eighteen years of age or over. The reason for this age restriction was because of the general feeling among the members of the club that boys under eighteen have plenty of opportunities to get the required amount of exercise both through the school program and through the local athletic and recreation activities sponsored and organized by the Drayton Valley Athletic Association.

Presently the new club has a membership of twelve and it is sincerely that this number is going off for training early in the game. For the Eli Allen Matron at our first period call by Referee Bill Ward.

ADMINISTRATIVE REMINDERS

The Drayton Valley Administ Club has resumed activities after a three week lull during the holiday season. The next administrative meeting in Drayton Valley will be Tuesday, January 22nd. The club meets in the Frank Madock High School and from at 7:00 P.M.

ELKS STION LIONS SATURDAY

The Elks came up with their first victory of the current D.V.A.A. hockey schedule last Saturday afternoon when they took on a 7-1 decision from the Lions at the local hockey rink. This was a postponed game originally set for Monday, Jan. 1, however, it was not played on that date because of unfavorable weather.

It was a big goal effort in the third period that won it for

the Elks. With the score tied 3-3 at the end of the second period, the Matton brothers went all out in the final twenty-five minutes. The first goal was scored by the Elks in the first period, the second by the Elks in the second period, and the third by the Elks in the third period.

In the Lions don't Freddy Kier got the game in the first stanza. Ken Morris and Don Anderson pulled in the second while Morris closed out the Lions drive with an early third period marker.

In the way of penalties the Lions had three calls against them with Gary McMorris getting the first. The Lions were going off for training early in the game. For the Eli Allen Matron at our first period call by Referee Bill Ward.

Steeffensen Nuptials

The Steeffensen family was gathered for the wedding of their daughter, Miss Steeffensen, to Mr. Steeffensen, on January 14th, 1968, at the Drayton Valley Hotel.

The bride was accompanied by her mother, Mrs. Steeffensen, and the groom by his father, Mr. Steeffensen. The ceremony was officiated by Rev. Steeffensen.

The wedding reception was held at the Drayton Valley Hotel, where a large number of guests were present. The bride and groom were the center of attention throughout the evening.

The bride wore a beautiful white gown and the groom wore a tuxedo. The ceremony was a simple but elegant affair.

The wedding party consisted of the bride, groom, bridesmaids, and groomsmen. The ceremony was a memorable event for all who attended.

The bride and groom are now happily married and residing in Drayton Valley. They plan to have a large family.

The wedding was a success and all guests enjoyed the evening. The bride and groom were the center of attention throughout the evening.

Attention!

OWNERS AND OPERATORS OF MOBILE EQUIPMENT

Effective January 1, 1968, all mobile equipment coming within the definition below is subject to licensing. If such equipment is operated anywhere within the Province except in Cities or National Parks.

The following definitions are taken from The Mobile Equipment Licensing Act:

(d) "MOBILE EQUIPMENT"

(1) means machinery or equipment capable of being moved to its place of use under its own power or

(1) means machinery or equipment capable of being moved to its place of use under power or by being towed, pulled or carried and not intended to be affixed to land, and

(11) includes equipment used for the purpose of seismicographic exploration and without restricting the generality of the foregoing includes

(a) seismicographic recording equipment and all apparatus connected thereto

(b) conductor cables and cable reels, geophones, amplifiers and cameras,

(c) explosive and detonating equipment,

(d) water tanks and pumping equipment, but

(11) does not include

(a) vehicles licensed under The Vehicles and Highway Traffic Act, The Public Service Vehicles Act, exclusive of mounted equipment on such vehicles, and

(b) equipment, other than vehicles mounted equipment, used to drill a gas well or oil well;

(c) "municipality" means a town, village, municipality, district, county, improvement district, special area, metis improvement district or forest reserve.

(f) "owner" includes a person renting mobile equipment or having the exclusive use thereof under a rental agreement or otherwise;

NOTE: Mobile Equipment having an original list price of less than \$5,000 does not require a license under this Act.

A copy of The Mobile Equipment Licensing Act may be obtained upon payment of ten cents from the Office of the Queen's Printer, 1025-104 Street, Edmonton, Alberta.

Address all inquiries regarding MOBILE EQUIPMENT LICENSES TO THE DEPARTMENT OF MUNICIPAL AFFAIRS, Edmonton. Licensees are also available at Department of Municipal Affairs Offices at Medicine Hat, Lethbridge, Calgary, Rocky Mountain House, Red Deer, Edson, Evansburg, Bonnyville, Lacombe, Wainwright, High Prairie, Peace River, Grande Prairie, Drumheller, Drayton Valley and the Special Areas of the Province.

Printing Is Important

Because it fosters sturdy religious faith and through varied publications, it takes the incontestable story of morality, tolerance and beliefness to all people of all ages.

Because it is the medium of a world better place in which to free press, and a free press is a spiritual values and makes the ages.

Because it records history so form of a free people.

Because it makes possible broad general education that keeps social progress in step with economic progress.

D.V.A.A. MEETING THURSDAY

The regular bi-monthly meeting of the Drayton Valley Athletic Association will be held on Thursday, January 17, at 10:00 P.M. in the recreation office. All men are invited to attend and any person wishing to learn the meeting is welcome to do so.

Just prior to the New Year's change was made in the executive committee of the Association. Jack O'Brien resigned as president and was replaced by Mr. O'Brien.

The new executive committee is still taking a very active part in the work of the Association. At the last meeting Clayton Robertson was elected president and Don

Steeffensen Nuptials

The Steeffensen family was gathered for the wedding of their daughter, Miss Steeffensen, to Mr. Steeffensen, on January 14th, 1968, at the Drayton Valley Hotel.

The bride was accompanied by her mother, Mrs. Steeffensen, and the groom by his father, Mr. Steeffensen. The ceremony was officiated by Rev. Steeffensen.

The wedding reception was held at the Drayton Valley Hotel, where a large number of guests were present. The bride and groom were the center of attention throughout the evening.

The bride wore a beautiful white gown and the groom wore a tuxedo. The ceremony was a simple but elegant affair.

The wedding party consisted of the bride, groom, bridesmaids, and groomsmen. The ceremony was a memorable event for all who attended.

The bride and groom are now happily married and residing in Drayton Valley. They plan to have a large family.

The wedding was a success and all guests enjoyed the evening. The bride and groom were the center of attention throughout the evening.

where he left off in the Junior trials, 10 Senior Open competition, however, it may be pretty tough task especially after being away from the game so long.

Combs has come steadily along in the past two years and really made a name for himself when he carried away the Dominion title in Toronto last summer. A fine two-day freestyle performance in either hand Oryin has won him a number of trophies and a victory over Billingsley further in Oryin's hand.

Other local boys who will see action on Saturday are Gary McLean, Kevin Combs, Gavin Combs and Arnold Walker. In the absence of Gordon Cross, Don Foster has been putting the boys through their paces and has each

Unity Movement Stand Outlined In Calgary Today

By EDDIE KEEN

Control of big business, extension of Alberta's boundary and changes in provincial oil policies are planks in the Alberta Unity Movement's platform.

Roger Lebeuf, its founder, who announced he will field candidates in the next provincial election, outlined his platform this afternoon.

Speaking at Calgary, he called for a return of the development of the Athabasca oil sands to provincial control by rescinding all leases to major oil companies

and establishment of a company financed through stock purchases by Albertans.

The government should assure that not less than 50 per cent of the profits of the oil industry are put into the public treasury and a Pipeline must be built to Montreal, the U.M. founder said.

ARTIC BOUNDARY
Mr. Lebeuf called for extension of Alberta's 1818 boundary to the Arctic, abolition of all government boards from which their are no appeals to the courts and additional tax revenues for municipalities.

Indians should be allowed to vote in provincial elections, the means test for old age pensioners must be removed and all elderly persons should obtain free medical services, according to Mr. Lebeuf.

The party advocates free tuition at the university and reversal of the trend toward "liberal-progressive" and a return to 15 hours in teaching. It also calls for exclusive use of Canadian textbooks in Alberta, more junior colleges and a commission to study the general trends of education.

FUND PROPOSED
Urging controls of big business and "cartels," the group proposes a fund from which small private enterprises could borrow to compete with larger concerns. It also suggests a bargaining body through which small private enterprises groups may negotiate with the "highly organized forces of international finance on an equal footing without fear of reprisals."

Mr. Lebeuf proposes an elected industrial and occupational body to work as an advisory agency of the Legislature and provincial boards. It would consist of representatives from the basic economic levels of society — farmers, the professions, from business and industry.

"BLESSINGS LETTER" Jan 1963

It has come to my attention that Michael Ash, M.D. is feeding his children bromides - 97 pills per day. This contains of iodine extracted from seaweed and powdered streptomycin from rock which is found near Chipping Sodbury in the Cotswold Hills. This, the doctor claims, sets up an immunity to radioactivity. It may even be a cure for leukemia.

This is not new. More than ten years ago fish and goats and other animals were fed iodine and were so immune to atomic radiation that they survived right under an atomic bomb explosion in the Pacific without any ill effects. I predict that by the end of this century (2000 A.D.) all of the people living on the earth will be immune to atomic radiation.

FREEZING has come into recognition and use in the medical profession. This is not new either. The thing that has been, is that which shall be, and that which is done is that which shall be done, and there is no more thing under the sun. Is there any thing whered it may be said, See, this is new! It hath been already of old time, which was

It is reported that Dr. de Langel kept the body of Miss Bessie Brown for 42 days. Slowly thawed her out and that was the reason for good health. Dr. Carrel, in his book "Man the Unknown," says "The cells of the human body are in themselves immortal." Dr. Voronoff has declared that "every man should live to be at least 140."

practical duties and to provide public education program for all people to acquaint them with the real facts about epilepsy.

Two of the largest of these responsibilities are reaching and attracting the sufferers of this disease that has been hidden in shame and disgrace for centuries, and reaching people with the real facts about epilepsy and getting them to accept the disease as it really is.

The Western Canada Epilepsy League presents regular monthly education program on the third Tuesday of each month in the Workshop at 2422 - 5 Ave. N.W. and is anxious to bring to story to any group that will listen. A letter to the League at 2422 - 5 Ave. N.W. or a phone call to Arlan 3-0971 will receive a prompt attention, either for a lecture, etc., or for an appointment for interview or information. Telephone call should be made after 6:00 P.M.

Curling

The Buck Creek Curling Club held their Club Opening Rongel on January 7 to 15, 1963.

The winners of the First Event was taken by Ed Gauden Rink and Second was Mike Saffs Rink.

The second event saw Chuck Rouch take first and second was Ron Thompson Rink.

IN THE THIRD EVENT - Gold Oil and Gas Rink won over Ven Hallmark Rink.

The closed Club Rongel was enjoyed by the local and community residents to start the Season Round Robin.

Reported by J.P. Boutsma.

Epilepsy League

WESTERN CANADA EPILEPSY LEAGUE OFFERS PROGRAM OF ASSISTANCE

The Western Canada Epilepsy League, a United Fund Agency, extends a generous and comprehensive program of assistance to the sufferers of epilepsy.

This program offers, family counselling for better epileptic relationships, welfare services including a good clothing bank for the provision of the essentials and comforts of an acceptable mode of living, a social and recreational activities for the promotion of good rehabilitation, medical assistance for the best possible control of the epileptic condition, employment assistance to better together employees and employees on a common and congenial relationship free ambulance service and assistance for medicine to relieve an already overtaxed financial burden.

General Motors of Canada operates a rehabilitation program at Oshawa and Windsor and maintains 100 jobs to provide economic security. The company has approximately 1,200 dealers.

More than 500,000 tons of raw materials fabricated steel a year are purchased by General Motors of Canada.

Lodgepole Community Centre

TAKE A FRESH LOOK AT HOUSE CLEANING

Are those household cleaning chores slipping behind? Sometimes metal utensils become discolored and don't gleam as brightly as they once used to do. Walls, woodwork, and floor mops may be freshly cleaned and polished. To help you with your cleaning problems, here are some suggestions.

Maybe your big problem is a greasy film on the bottom of your frypan. To eliminate this, a leading appliance company is now manufacturing a degreasing agent (D). Once this product is applied, the outside of the pan will not build up with an unattractive film.

Likely you just cleaned your oven last week and it was just sparkling until that roast spattered all over it. A very easy way to restore those patterns is to use a new vapourizing type of cleanser (D), which comes in a cardboard box container. You simply open the container and place the whole unit in the slightly warm oven and leave it a few hours. During the interval the vapor actually softens and cuts the grease making the clean-up job just one of wiping and rinsing the oven walls and racks with warm water. There you are...a sparkling clean oven once again.

Has a dripping tap made a rust stain in a sink or tub? All leading commercial rust removers (D) can be used according to package directions. As an alternative a solution of caustic soda (two tablespoons of a quart of warm water). Simply pour this over the stained area and let stand a few minutes before rinsing away.

Applying a coating of wax to your enamelware worktops and doors makes them fingerproof. Rub unvarnished surface with a solution of ammonia and water (two tablespoons to one quart of water). Rub with a very dry, then take a clean sponge, and apply self-polishing wax with smooth downward strokes from top of the door.

CANADIAN RED CROSS SOCIETY

MANY FINE VICTIMS GET INFO CROSS RD

In the week from January 13 to 19, over 100 items of bedding and clothing, as well as dozens of health kits, were shipped from Provincial Red Cross Headquarters in Calgary to provide emergency aid to some 40 victims of fire disasters at points in the province.

Within minutes of receiving a call for aid to five victims at Fort St. John Thursday morning (Jan 10) the Provincial office had alerted its Edmonton branch and emergency supplies were in progress of being shipped to the disaster victims. Additional supplies of health kits, made by Junior Red Cross members and containing standard health needs, were shipped by bus from Calgary to Edmonton.

Red Cross supplies of bedding and health kits were also shipped to the same area and let stand a couple and their children whose home was completely destroyed

DAILY EXPRESS

OPINION

THE WAGES OF MURDER

WE reaffirm faith in fundamental human rights, in the dignity and worth of the human person, in the equal rights of men and women and of nations large and small.

These are the ideals to which the United Nations is dedicated. What does the United Nations do in Katanga?

It makes war on the only portion of the former Belgian Congo where some spark of order and good government has been preserved.

Responsibility
It may be said that the United Nations is not responsible for the conduct of the badly disciplined and nervous soldiers who have disgraced its name in Africa. The United Nations must bear the same responsibility as would fall on any government waging war at a distance by means of others and troops who are following or exceeding or defying a directive.

No authority
AND yet—what was the mandate on which U.N. troops launched their attack?

It does not exist. It never existed. The United Nations instructed its Secretary-General to restore order in the Congo. It gave him no authority whatsoever to pursue a war of racial extermination, or to mount an expedition to force on the Katangans a regime that fitted the theories of U.N. and his Afro-Asian clique.

In Britain's name
THE United Nations sets itself up as a judge over the nations. It acts through its agents—like a criminal.

For Britain this issue of the Katanga atrocities has a plain and immediate bearing.

What is done in that unhappy African land is done in Brit. N. name. It is done with Britain's money. Britain pays a share

The executives of the Legion Ladies Auxiliary as seen at the official opening of the new hall.

towards the wages of the soldiers who have committed murder in Katanga. Britain should stop those wages this day.

Notebook

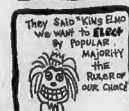

Mrs. Lyla Davis, of Vancouver, B.C., spent the Christmas season visiting with her daughter and her family. This was the first time Mrs. Davis had been able to spend Christmas with her grandchildren.

Arnold Erickson, First Caidler with the local Treasury Branch went to the Treasury Branch in Vermilion as Assistant Accountant. Arnold had been with the local Treasury Bank since it first opened twenty months ago.

For the purpose of the record that headgear we purchased in London is not to repeat, NCT, a dandy. It is a bowler. Dandy were a hard black hat much in favor among players with flares and gangsters at one time. On the other hand, bowlers are worn by 'old' men of distinction.

One of those 'most remarkable hands' of old was held here recently. When Herb Zander held the day on the money line, Kuppert at Pan. Am. G. Lease Camp. (Note for the purpose of the record, we will record no more '29 hand' without photographic proof since the mathematical odds against them are astronomical.)

Sorry we have no more clips about to record this week.

PEMBINA NEWS ADVERTISER and The Western Weekly Supplement

Vol. 8 No. 3 JANUARY 22, 1963. A. Playford, Publisher, Box 120, Drayton Valley.

Farm Area Coverage January 31st.

This week's paper will be part of a 'Print Edition' that goes to all the farmers in a selected area. This paper, (January 22nd) will be sent to a limited number of these farmers, but the paper next week, January 29th, will give complete coverage to all the farmers in these selected areas. This is done through the cooperation of the Chamber of Commerce of Drayton Valley and the Pembina News Advertiser.

We plan to give at least one full page each week to items of farm interest, particularly to articles relating to farming in the Grey Wooded Soil areas such as we have in this district. It is hoped and expected that a variety of other papers will be featured at least once a month. Anyone who feels they have anything to contribute in the way of benefit of the solving of problems peculiar to this type of soil and farming in this area is welcome to contribute such information for the benefit of all.

In addition to this, since we will be covering most purely rural areas, we welcome anyone to submit items of interest relating to their own particularly local area. You will find, when the papers are sent out on the regular basis, that we are particularly interested in the selected districts that we are particularly interested in receiving news from the local correspondents, as you will know them just what areas are being covered.

This is being done, as stated in conjunction with the Drayton Valley and District Chamber of Commerce with the idea of making all of us, both towns and rural residents increasingly aware of the many benefits of this district.

In connection with this, a Farmers' Week will also be staged by the Drayton Valley Chamber of Commerce at a later date, announcement of which will be made through this paper well in advance. With the Chamber of Commerce staff, a Fall Fair Association committee has been set up. It is the hope of this committee that an annual Fall Fair may be staged for this area, which, as it does in other districts will give recognition to farming and livestock raising in this area. In addition to giving recognition to many other phases of domestic activity, such as earning, baking and so forth. In connection with these things it is expected that various 4-H Clubs will be set up within this district.

This paper will be circulated free to the resident farmer for a period of several weeks, after which he will be given the advantage of very favorable subscription prices, should he desire to continue to receive the paper.

BOXING

Reported by Don Boller.

DRAYTON VALLEY HOLDS BOXING CARD

On Jan. 19th, the Pembina Boxing Club, under the sponsorship of the Drayton Valley Athletic Association, played hosts to boxers from Slave Lake and the South West Legion from Edmonton.

Gray Mace of Drayton Valley won a close decision over Gordie Sinclair of Slave Lake in a real slug that could have gone either way. Drayton Valley's Arnold Webster got a real surprise when he went in against Earl Little of Slave Lake. Gordie was a cousin of Gary Mace of Drayton Valley and proved to be just as much of a scrapper. Arnold got the decision, but we expect to see more of Gordie and all his own way. Our main event saw two of the top boys in boxing trade punches in what was a real battle from start to finish.

(Cont. on page 13, Col. 3)

COUNCIL MEETING

The regular monthly meeting of the Council of the Town of Drayton Valley was held on January 10, 1963, at 8:00 a.m. in the Council Chambers, Town Hall, Drayton Valley, with the following members present: Mayor Adam Mace, Deputy Mayor John R. Swain, Councilmen: Earl Little, Jack Buckley, William Snodgrass, Earl Thompson and C. D. Tole.

The minutes of the previous meeting of December 13, 1962, were read and adopted as read. The list of accounts was approved and passed for payment. The Financial Statement was approved and directed for filing.

Council agreed to bring the fallings of the swimming pool lock-out to the attention of Western Swim Pool Ltd. and request that it be remedied prior to next swimming season. Council also authorized the construction of a new dressing room in the men's dressing room at the swimming pool.

Farmers of the area will gather next Wednesday Jan. 30th to take part in Drayton Valley's first annual John Deere Day which will be sponsored by Chief Sales Service at the Caddium Trust - January 30th at 1.30 P.M.

Mr. Ben Herold, host for the show, describes this year's John Deere Day as a most interesting one. The day is devoted entirely to farmers, their wives and children.

"This is one day," says Mr. Herold, "that we set aside for the families of this vicinity. It is an attempt on our part to acknowledge the great contribution of the farmer to the whole idea of American enterprise. The high afternoon program is to be highlighted by a presentation featuring the very latest in farm equipment shown under actual working conditions. In addition, farmer-guests will be treated to a most interesting demonstration of the advances of chemistry in farming, new work methods, innovations which keep agriculture in pace with world progress. (Cont. on page 13, Col. 3)

District Personalities

MRS. JANE MACDONALD Photo By: Jacobs Studio.

Mrs. Jane Macdonald was born in Canada, coming first to Toronto. Later they moved to Winnipeg and were two years in that mid-western city until they returned again to Toronto, where she was born in 1882. Though she had been a regular church goer all her life, it was in the spring of 1948 that Mrs. Macdonald experienced a new kind of profound spiritual experience through prayer and meditation in her own home, while more or less alone in a strange land. Her prayer now seemed to be divinely directed to the point that her husband returned to his first calling, the ministry from which circumstances had turned him aside several years earlier. As a further result of this profound new spiritual experience Jane now demonstrated, her husband, as time went on, became increasingly aware once more of the divine call upon his life. Scoring her in her feelings that her husband belonged in the ministry was her husband's announcement that he was going to the Lord right after he was born.

Soon after this Mrs. Macdonald had the joy of learning her husband's announcement that he was going to the Lord right after he was born.
